This engaging and interactive session is designed to highlight the benefits of hiring talent with disabilities and get your help to design a talent pipeline for youth and adults while addressing some of the barriers business faces, like: reasonable accommodations, retention, co-worker training and accessing tax incentives. Through small group discussion, you will leave with a plan for how your business can succeed, while supporting this important part of your workforce.

The session will be 10/27 from 8:30 am to 10 am, both in-person and online. The in-person session will be held at the Dimension Mill, 642 N. Madison Street Bloomington, IN 47404

Parking in front of the Mill is permit parking only. You can park in the meter parking spots on 11th Street, or on Morton or use the new parking garage on 10th Street. There is free two-hour parking on Rogers Street. We are not responsible for any tickets for parking in front of the Mill or if anyone is towed from the parking lot that is located in the South end of the building.
